2022 - present

## WORK EXPERIENCES

### Frontend Developer
Forkflow | June 2022 - present

Worked on development of iOS app Holder, a portfolio tracker. Developed and maintained one of the first e-commerce websites that used Shopify Hydrogen framework. Automated invoice creation with Slackbot and custom CLI tools

### Junior Front End Developer
WeAstronauts | May 2021 - April 2022

During my time at WeAstronauts, I have helped with creation of many blogs, personal websites, e-commerce shops and web applications, primarily using React, Laravel Blade, Sage and Wordpress.

### Intern
CISCO | May 2021

Cybersecurity, CCNA preparation, IoT and Data Center overview, DevOps

### Junior Front End Developer
Krakweb | November 2020 - December 2020

Creating demo e-commerce websites for the company, maintaining existing codebase
